Vacancy 7672 - Data Scientist at ABN Amro	21 alts
Vacancy 9731 - MLOps engineer at KPN	9 alts
Vacancy 1146 - Software engineer at Apple	2 alts
Vacancy 4297 - Data Scientist at Picnic	14 alts
Vacancy 6134 - Data Engineer at KPMG	27 alts

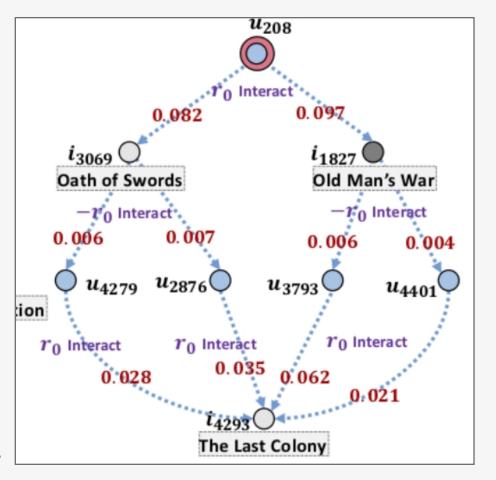

Explanation:

John Doe and vacancy 1146 are a good match for each other, due to John's previous experience working at Apple and his MSc in **Software Engineering.**

Candidates that were hired for similar vacancies, often had these skills: SCRUM, DevOps, and Java, which John possesses.

Additionally, **Apple** is **not** looking for a remote worker, so **John**'s location, Amsterdam, is desirable.

Vacancy 1146 - Software engineer at Apple

We're looking for a strong and driven software engineer to join our Apple Music team! An ideal candidate would have

- a Master's degree in software engineering, data science, Al, or
- a related field. Additionally, they should be able to work in a ...
